1 This is a heading

Some dummy text. Some more dummy text, and even more.

1.1 Subsection heading

Here is some type set Java code.

```java
1    public void testEmpty () {
2        list = new MyALDAList<String >();
3        assertEquals(0, list.size());
4        assertEquals("[]", list.toString());
5    }
```

If you don't want to copy the code into the document you can pull it directly from the source file instead:

```java
1  class Exempel{
2
```

```
3 ||    int i ;
4 ||
5 || }
```

Or you can pick out just a few selected lines:

```
1 ||    int i ;
```
